If you have recently spilled something on your beloved macbook and it will no longer power on or you no longer have a backlight. If you take it to the apple store and they've told you it will cost \$500 or \$1,000. There's no need to pay that foolish price.

Bring the system to me, and have it fixed correctly for a MUCH better price!

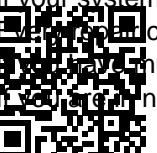

I charge a flat rate fee to get your system working again. I also offer advanced data transfer IF unsuccessful(which, chances are, will NOT be the case).

If interested in the service, please contact me with your issue as well as the model of your macbook.

Some of the issues that I fix are

- Systems not turning on.
- Systems turning on with the fan spinning full blast.
- Systems that don't detect / read the battery
- Systems that won't work on the battery
- Systems that don't detect / work on the charger
- Wifi / Bluetooth Antenna issue
- Wifi / Bluetooth card issues
- Keyboard issues
- Keyboard backlight issues
- Systems with no backlight

I also do upgrades including Ram / Battery / Hard drive upgrades
