Are you working on your thesis or dissertation? I can help you with picking a topic, research design, editing, statistical analysis, and navigating the review process. I have experience with survey research, instrument validation, and statistical analysis (multiple regression, factor analysis, ANOVA, nonparametric bootstrap, etc.). I currently teach statistics at an online university and recently obtained a PhD in psychology with a specialization in research methods and analysis (undergraduate work in finance and economics).

Do not assume that you will graduate because your committee approved your proposal: reviewers can and will find fault with your design or execution, and I can help you maximize your chances for success.

We can meet in Pahrump for a free review of your project, or we can talk.
