Compensation: Contingent on experience and my needs

I currently have a web site hosted by Godaddy.com. It is okay, but I need one that is looks better and is easier to edit.

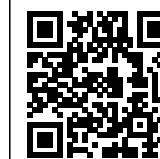

I have a lot of info currently there, and I sell downloadable files through E-Junkie.com, linked to PayPal.

My contract with Godaddy ends in June and I need to transfer the content to a new host.

If you are a \$-reasonable web hosting entity that will all me to edit/add content, please contact me.

My offer from Godaddy to rebuild is \$999.99 and \$179.88 to host.

To "facelift it" by Godaddy is \$249.99.
