

Hello

At this point it makes an excellent project car for someone industrious, especially if you do a conversion, as many do with these older mk2 or A2 Jetta's for someone wanting to make it into a manual car with a [16-V engine or V6 or 1.8t for that matter] - at least I think so.

- Royal Blue
- 4-door
- Sunroof
- Air Conditioning
- Power Windows and Locks; including gas cap
- Power Steering and Brakes
- Alloy Wheels

This is originally a California car, so it has essentially no rust.

As it has not been acquired as a stock, it will only be available to [redacted] for a short time [redacted], after which it will simply disappear for good and be scolded in

Thank You

for a variety of reasons, the following parts are not available, but can easily re-acquire them:

- seats
- battery

previously, i was reluctant to remove parts, however at this point it is an option and i will make a list of interest and most likely sell anything by the end of October which is my intended deadline for selling the complete car - a shame if it comes to that as non-rusted bodies are not generally
