1988 Ford Thunderbird Turbo Coupe.

2.3L 4cyl Turbo, 5 speed T5 transmission, 94,000 miles, fully loaded, power: seats w/lumbar, windows, locks, mirrors, antenna, trunk/fuel release & moonroof. Leather interior, automatic headlights, tilt, cruise, AM/FM Cass. w/EQ, dual exhaust, newer Pirelli tires, new clutch, slave cylinder, new battery, new radiator, new fuel lines, new rear shocks, brakes are good, AC blows cold (had to recharge the past 2 summers but holds for the entire season).

Now the bad:

- Dash has one crack
 - radio EQ power button won't stay on
 - ABS light is on
 - Has rust at the bottom of the doors & left rear quarter (see pics)
 - The front has been hit. The front is kind of tweaked from the accident, but not real noticeable (see pics).
- It needs a new front bumper and nose piece (which I have, matching color, and will be included), hoping the rest can be pulled back into shape. This does not effect the ride or safety of this vehicle, truly just cosmetic.

-Wheels could use refinishing, but have no damage or problems holding air.

Runs and drives great. This is basically my daily driver in good weather. Fun to drive.
