

## 2003 Polaris Sportsman 400 4x4 (2500, USD)

Location **Maine**  
<https://www.genclassifieds.com/x-439695-z>

Adult owned. Automatic, electric start. Runs and drives great. Has diamond plate skid plate and front cv axle guards. Just took in trade. I'd recommend changing all the fluids etc... as I don't know when it was done last. Previous owner said a year ago. I have some Polaris brand fluid left over from when I had my Sportsman 700 that I will throw in. Speedo and odometer doesn't work so I don't know how many miles or hours are on it. But given it has the original tires without about half tread, I would say it isn't many. Plastics have typical sun fade but no cracks. Seat has no rips. Also has a tow hitch. The plastic running board on the left side has a small piece broken off and the front plastic luggage rack has two little pieces broken off above the right low beam light. The low beam lights aren't working but the bulbs don't appear to be burnt. Also, I can hear the drive belt tapping against the belt cover when idling in neutral. So I'm sure a belt change is needed. Easy fix. Other than that, its the perfect work horse \$2500.00 FIRM. Cash only. No trades. Sold with bill of.
