

Female Model for 3D Scanning and Printing (Sheepsheadbay)

Location **New York**
<https://www.genclassifieds.com/x-439754-z>

Hi we are playing around with potentially new opportunities in 3D sculpture and modeling. This is NOT paid but if it works you get to keep your 3D scanned image and 3D printed image for free.

What we want is 1) scan top of the body, nude or with bra that will not be visible when 3d Printed and then print scanned mode. 2) possibly do the same with full body, counter posture so printed model can stand freely.

We will do scanning in our shop.

Please send your photos

Again this is NO Pay, we will only provide resulting work to you at this time.

Thank you
