

Mobile Service Looking Popular BSU Student (Boise)

Location

Idaho

<https://www.genclassifieds.com/x-439787-z>

We are looking for a popular BSU student that wants to make passive income by helping grow our network of mobile service users. You would be getting paid every month when the people in the network pay their phone bill along with free mobile service for yourself. Our top rep in the company makes 20k per month in passive income. We have a rep in Texas making over 5k per month along with several other throughout the country. We have towers (Tmobile towers) all over the Boise area so the signal is excellent. Its a fresh market with major growth potential. Someone is going to capitalize off this soon. Will it be you?
