I work 12 hour shifts and commute an hour and a half to work 3 days a week. I'm a 33 year old professional guy just looking to cut down my milage. I am looking for a room for around \$200 a month where I could crash just a few nights a week. I'm quiet and don't know many people up in bangor so I won't be having anyone over. I'd like to be no more than 10 minutes away from the hospital. I'm a non-smoker and very laid back. Please feel free to email any.
