Several people have reported their gas pumps not pumping gas and their fried chicken being extremely undercooked and in a few cases ROTTEN. And OFCOURSE they expect you to pay for it FULL PRICE!!! We actually seen a worker drop a piece of chicken on the floor and still served it! I called and spoke to the owners on all 4 occasions and they accused me of being a CON-ARTIST!!! She said that people that are poor or have little money deserve it because it is their own fault! We also know 2 people who worked for them and they refused to pay them their last paycheck saying that it was mailed and it has been over a year later and they still never received anything from them. When they said they would pursue legal action, she told them good luck finding an attorney without any money and that poor people have to settle for what they get. WOW!!! THIS IS NOT THE AMERICAN WAY AT ALL!!!!!!!!!!!!!!!!!!!!!!  
BOYCOTT THESE!!!!!!!!!!!!!!!!!!!!!!
