Same Day TV and Appliance Repair (State) Early AM or Late PM and Sat all day after 12:00 Availability. I know of the frustration in the loss of wages often more than the usual . If you need help, I promise we can work it out and for less than you think. Reg hours 9-7ISH Monday-Friday. Emergency's get priority. Most days I can work as early as 7-8 if need be.

Dryer need help?

A good sign is when its taking longer and longer to dry.

This is most always a air flow issue, From a clogged vent to a sock stuck in the blower, You do not need a bunch of parts or any at all sometimes if your dryer is heating but not drying, For far less than \$100 you can restore your dryer and save that much in utility's very quickly.

Hard time getting out of warranty Samsung repair? Its the brand I learned on, The shortage of people, the prices, and in 1 case Samsung will tell you to contact someone that very very few are happy with, It is a pain. Me? if parts are in town from when you call till its finished is a 48 hour max I set for myself. More often its a call me in the morning and its fixed by dinner time for 1/3 of the others price. Ask for a email pic of my ID for Samsung.
