Hard time getting a out of warranty Samsung repaired? Its the brand I learned on.  
 I charge a \$70.00 S/C that unless we have a very time consuming issue (over a hour and a half) all you will have to pay is part(s) needed at the bar none least marked up prices you will get.

Will be free after noon Sunday as of now. If you get VM please leave a msg or text.

I understand the cost of a repair also often means a possible lose of wages needing to miss work. I I can and do work with YOUR time needs.

I do calls on Sat and Sun as if it were any other day. No extra charges.

I run a 70-80 mile radius from mid Oklahoma City and will go anywhere reasonable as long as additional fuel and time is addressed.

Thank you and have a nice weekend,
