Same Day TV and Appliance Repair owner/tech with 20+ years exp.

Hard time getting a out of warranty Samsung repaired? Its the brand I learned on, Me? if parts are in town from when you call till its finished is a 48 hour max I set for myself. More often its a call me in the morning and its fixed by dinner time for 1/3 of the others price.

S/C is \$70 If you do the repair it goes to the repair labor charge. Part mark up is basically the cost to get said part.

I do calls on Sun as if it were any other day. No extra charges.

I run a 50-80 mile radius from Oklahoma City and will and often do go to Enid I go anywhere as long as additional fuel and time is addressed.

Thank you
 Steven Todd Hurd

Owner and 20 plus year exp electrical and mechanical technician.
