

Carpenter to build a banquette

Looking for a carpenter who can build a L-shaped banquette. Please check out the pictures to see what I have in mind. The first picture shows exactly what I want. The second picture shows how the seating should open so I can have space for storage. One side is about 63' long. The other side is about 43' long. If you would like to do this, please send me a quote (labor + material). It should not include painting. I will do it myself. Thank you very.
