Then stop!

Why not save yourself time and money and consider your options. With the big firms you do all the work and pay the price. Why not pay less and have someone else do the work for you?

If you are needing someone to handle it for you or are currently using a payroll service like ADP or PayChex, you are paying way too much for your payroll needs! Why pay more when you can pay less for the same services?! Wouldn't you prefer to get the same kind of service, spend less of your time dealing with it, and pay 40-50% less? Give me a call or email and let's see how I can do it for less and do most of the work. If you're on a contract it's not a problem. Shop around now and get it ready so when your time is up you can easily move over.

I process payrolls on a bi-weekly, semi-monthly and monthly basis. You fax, email or drop off the info I need, I do all the work. I am currently looking to expand my client base regarding payroll services.
