Hi. We are a family looking to give a forever home to a puppy. Due to varying work schedules, someone is always home. The puppy will be loved, properly trained and exercised on a daily basis.

We own our house and have a fenced in yard! We have decided on vet, if vet reference is needed. We already know of a couple dog parks nearby as well a petsmart for plenty of toys. We have put a lot of thought into this decision of adding a family member and giving them the best home possible.

We would rather a female pup over ay male. And because of an incident with an older dog biting, we'd prefer no older than six months.

We aren't willing to spend a crazy amount, and we aren't supportive of breeders. We are looking at shelters as well, just haven't found a match yet. Dog breed does not matter.

We are very excited to have a puppy join our family and hope to find the perfect match soon! Please feel free to email it goes straight to our phones and one of us are able respond right away. If you prefer phone, just email your.
