Regina arrived in the US as an au pair on April 6th and is available to join a new family on May 18th. Regina is a warm and loving caregiver who has been working with a very busy family with four children. The family is more interested in a "take charge" person who can oversee a busy schedule, whereas Regina is more suited to giving children one-on-one attention. Regina in particular formed a special bond with the family's two-year-old daughter, and enjoyed playing basketball with the older boys. Regina is recommended for family with less than four children.

AuPairCare is a premiere au pair agency that has been helping families find quality live-in childcare for over 25 years. The cost to host an au pair works out to only \$8 per hour; much less than hiring a nanny or paying for daycare!

As an Area Director:

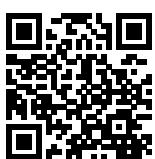

â€¢ I work with 45 other families in this community and provide yearlong support

â€¢ Au pairs provide live-in childcare for any number of children at the same affordable rate

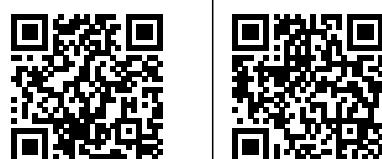

â€¢ AuPairCare au pairs are all screened, trained, English speaking & have full profiles available online.

Please contact me to learn more about Regina, or hosting an au pair in general. I am always happy to talk!
