Teaching and playing drums for 44 + years. We'll take you beyond playing a basic beat to truly studying the art of drumming.

We'll take the mystery out of reading legit music notation - it's necessary and easier than you think.

Learning a musical instrument, and learning it well, is a journey.

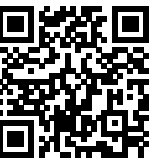

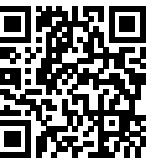

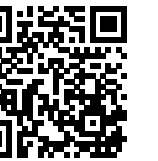

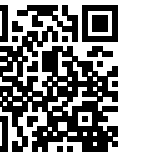

We use only professional drum sets for our students and teachers. We reference 'The Right' drum materials - the bible books for drummers.

We understand and convey the necessary fine motor skills it takes to control and manipulate the drum sticks.

Regardless of the style of music you want to play, the fundamentals are the same and necessary.

We welcome beginners, intermediate and advanced students of all ages and students of different proficiencies / learning differences.
