Outsourced - Accounting, Bookkeeping and Tax Preparation

Our team of bookkeepers and tax preparers will save you money and headaches!!!

By outsourcing your accounting and tax preparation, we can save you anywhere from 25% to 50% of the cost of doing it in-house. Some of the benefits of outsourcing include:

* No salaries to pay
* No fringe benefits (health insurance, retirement plans, vacation, sick pay) to pay
* No payroll taxes to pay
* No recruiting/interviewing headaches
* No training required
* No baggage that comes with employees
* No employee turnover
* Professionally trained and supervised accountants working for you but employed by an accounting firm

We have highly qualified staff who can remote in to your computer to provide accounting services, accounting review, and tax preparation. We can even help manage your accounts payable, accounts receivable, payroll preparation and sales tax filing.

Because our staff consists of QuickBooks certified consultants, we can get up to speed right away.
