We got this puppy from a friend who's dog gave birth to them. He was the only dog this color. The rest were all tan. Well, it is a boy Chihuahua, about 6 months old. He doesn't have any shots yet or been fixed. He has not been around any other animals so he is very healthy and clean. We love him to death but we have a one year old baby and we can tell that it is not going to work. Our baby is going to end up hurting him. We don't want to loose him but we have no choice. We paid 400.00 for him. He is very small, borderline tea cup. Please text me, NO calls please. We are not expecting to get all of our money back but we would like to get most of it. He is still a baby and a awesome dog. He is pee pad trained because we live on the third floor but I'm sure he can learn anything. Text
