Really nice Designer Bar Stools that will make any home look classy and cool. All three are in great shape. The wood is a nice dark stain and the white leather bar stool is extremely comfortable. The seat is 26 inches off the ground and the back goes up 37 inches if you are trying to measure against your counter. All 3 are for \$210 total, the stools are \$70 a piece. Great deal! First one to respond to the add and show up with \$210 gets them.

Thank you for your response!
