wanted:

Are you a group in Nashville that can't seem to get a break but you think you're ready for a major label?
Do you have a little bit a of a fan base, social media follow and some youtube videos?

We are looking for that special young pop/hipster/country rock band that is slipping through the cracks.

Must look great
sounds like Goo Goo Dolls meets matchbox20 meets fl/ga line.
Awesome vocal harmonies a must. Like The Eagles/Beach Boys.

You cannot have any management.
Must all be great at their instruments.
Must be able to write and already have some original material.

Please submit links to your youtube page and your other social media.

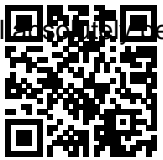

If you do not have a youtube channel or do not use social media then you DO NOT need to submit anything.

DO NOT SEND ATTACHMENTS!
