We have 2 ponds.
One that can hold fish, the other other is just for trickling landscape beauty.

We need someone that knows/understands ponds to seal our pond add a hidden pump/filter fill it and have it ready to add Fish.

It is a beautiful rock pond that has dirty water in it now.....my Hubby will drain it and clean it.

You must know to replace liner or seal the one we have-if needed and get a cleaning system going.

We can talk price befor work is done. We buy all pumps/filters/pipes/liners/sealers.

Finish must be perfectly done befor payment.

(This is not authentic pond pic but is very close to the actual one/ the trickling pond too.)

Thanks.

Must live in Murfreesboro.
Completed job within.
