Spirit XT357

I bought this May 2014 from Play-It-Again Sports. They said it only had one owner and was hardly used. I haven't used it as much as I thought I would.

MSRP 1900.00. Mechanically sound. It's pretty quiet, but unfortunately the floors in my townhouse conduct sound easily and my neighbors can hear it.

The only thing wrong with it is the plastic guard on the bottom is cracked (see pics). It has a total of about 50 miles on it and almost 40 hours of use.
