

# seeking someone with graphic design AND excel skills (wherever you are)

Location

Vermont

<https://www.genclassifieds.com/x-441513-z>

Greetings, this gig can be for someone who lives anywhere, as it is 100% digital.

I need someone I can give jobs to that have skills in BOTH graphic design AND knows their way around excel and isn't afraid of databases.

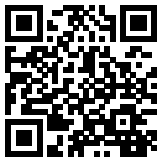

If you are computer-savvy and get the basics of excel and want occasional work doing projects for me, respond to this post with a paragraph or two about your skill set mentioned here and your availability.

This is nowhere near a full or part time job, this will be occasional side work that will be nice to have extra money in your pocket.
