I have a 2002 ford escort that I need the whole drivers side headlight swapped out. I can b mobile if I need to. But my boys can't quite get it done. I guess you have to take the whole front bumper off. And they aren't experienced enough to do themselves. Can anyone help with this small but meaningful task? I don't have a lot if money to offer but we may be able to barter for services. Hit me up Becki!
