You Can Use My Music On Your Youtube Videos...if you buy them from a place like iTunes, Amazon, Bandcamp, etc. that's fine.

You can use any of my tracks anytime you want on youtube. There's over 100 tracks to choose from.

Youtube will put ads on or next to your video but they will not take your video down and your channel will remain in good standing.

You will get an email from Youtube saying you are using content owned by a 3rd party, but you do not need to worry about that, that 3rd party is ME and my partners :)

So It's All Good XD

NOTE: If you use <http://dhruvaaliman.bandcamp.com/> you can get any type of file AIF, WAV, MP3 etc. for the same \$1.

Scroll down on the right hand side to review earlier albums, click "More Releases".

This applies only for youtube. For bigger projects other than youtube, you can license my tracks from any of the royalty free music libraries I'm in.

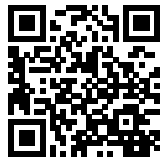

See my website for more details-
