

Need physicians with iPhones to review app (140) (online)

Location **California**
<https://www.genclassifieds.com/x-441911-z>

Hi!

I'm Liz with UserTesting, and my job is to find niche participants to participate in web and mobile usability studies. Our client is looking for feedback from physicians with iPhones on their new iPhone app.

We're offering \$140 via PayPal for less than 40 minutes of your time. You can do the mobile usability test in your free time, from your iPhone.

If interested, please respond to all 5 questions below, and we'll be in touch:

1. Your name
2. A good contact email
3. Your speciality (example: Internist, Neurologist, OB/GYN)
4. Your online profile URL (Healthgrades profile, LinkedIn public profile url, private practice website profile, hospital website profile, etc.)
5. Your iPhone iOS version. Settings --> General --> About --> Version

Best regards!
