I buy gold and silver and will help you put cash in your pocket if you're willing to host a gold party. What is a gold party? It is a party where you invite friends and family to bring any gold and/or silver they no longer want, including scrap pieces. I will analyze them and pay each person for their items. At the end of the party, the total amount of profits will be tallied and you receive a percentage of those just for hosting the event.

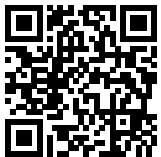

It could not be easier and I will help you set it up in a way that will encourage great success. Who wouldn't want to make some extra cash for having fun?

Drop me a line with any questions and to set up your party date.
