I have a 1997 Subaru Legacy. It is pretty old, the reason im asking for a low price is becuase it does have a bad transmission and a leaky oil seal on the left side of the engine. The vehicle has it studs on still but has summer tires to go with it, also an extra radio thati bought because I prefered cd's and had it changed out instead of the aux tape cord. It does have 200*** miles but the good thing its that the car before I got it I bought it from a mechanic here in town and he said the engine he put in it from a diffrent subaru had 90*** miles. But the car does have to go and im asking 700 obo it is pretty dinged up but the engine it self is worth more then im asking. I just don't need it anymore I got my uses ?out of it but it could be used for a parts car. But im available in the evening feel free to text me,
