Do you need a computer reloaded?  
Blue screen, sudden crash?  
You caught a virus and now your computer runs slow?  
Your computer crashed and you do not know what to do with it?

My name is Justin! Most computer manufacturers charge 90-120 dollars to just reload the computer it self. I am charging 45 dollars for everything, reloading, updating, ect. Please contact me and if you need it done. I will get back to you within 6 hours or less.

I have been working with computers ever since I was 3, I do know what I am doing, I have reloaded my computer many times and updated my software. I can have references if you would like so, just ask and I can give them to you, I want the best for someone that has a computer. No one should deal with a slow computer!

- Reload an Operating system : 45\$ Windows 8, Windows 7, Windows Vista, Windows XP (If you do not have your own disc, I can still reload your computer)

- Upgrade your Operating system : Please ask about it when you call
