She is not up to date on her shots, last shots were 2011, sadly this dog has been alone for a long time, and she needs care and love, she is very loving and sweet dog, I tried to take her in and I was gonna update her on her shots, but her and my dog did not get along (Because my dog) My dog (German Shepherd) did not like her, got jealous too much even though I gave them both attention. So I am looking for it's only been 5 days since i got her and this dog is sweet and she let me check her teeth, she loves walking and running, she is white with lots of spot, and she is not spayed. She is 4yrs old please come look at her to see for yourself, she is shy, and she does bark at intruders, (From what I have seen.) Please she deserves a loving family, her teeth are nice as well. She just needs shots updated and that's it, she was fenced for a long time. I have no pictures of her yet, i will
