Hi,

These are a pair of size 10 doc martens brand, model name: "Phina" women's knee high buckle boots: 5 buckles; color: Black.

Slightly worn. Smell okay, not like feet (I'm OCD about hygiene).

I'm a 9.5 and these are just way too big for me (Doc Martens I wish would make half sizes).

Plus, I have knee high timberlands and a large boot collection to replace them as much as I like the Doc Martens, they're taking up space. When I have time, I will go through the closet to find the plastic container that is keeping them safe and I will post pictures***

***I'm wicked busy but here is a picture of them from google, just so you can have an idea of what they are like.

If you are in the area, we could meet some public place like Harvard SQ or any SQ in Cambridge or Somerville we can meet up and I'll show you them in.
