

Weeds and odd jobs, Need help (United States)

Michigan Location https://www.genclassifieds.com/x-442355-z

I am looking for some one willing to help with weeding and other small outside jobs. I am a bit of a brown thumb and would like a person to help with planting some flowers and plants. I have a small yard, nothing overwhelming. I had a great college student helping me the last two years looking for some extra cash. He has moved on and I need a new helper. Weeding, watering plants, helping me organize my garage, just small stuff like that. various hours each week, scheduled at each of our convinces. Let me know if you are interested, and I look forward to hearing from.
