Finding the right partner is not easy.
Character, trust, integrity and the strength of partners relationship will determine the success of the business.
I have always wanted to start my own business and like most who are starting a business I am excited but most importantly I believe in this venture.

I am Creative Fashion and Graphic Designer, building a clothing line. I already started on the process, but it's becoming a bit overwhelming and time consuming. I am seeking for a business work savvy and trusted partner for day-to-day operations of the business. I am open to any type of partnerships. The partner would be given a percentage of the company / it's profit's for an agreed amount of time based on experience and what he/she brings to the table. Please e-mail me what you can and willing to contribute. If we talk and discuss the idea I will require a NDA.

In the fashion design industry is all about having confidence and understanding what you want out of the business. It requires some time to find the right partner and for a partnership to work effectively.

If you are interested in taking a journey into the world of fashion, please get in touch.

Looking forward to finding you!
