Ridgeway Grandfather Clock, 2190 (. USD)

Location **California** https://www.genclassifieds.com/x-442514-z

I am selling a Ridgeway Grandfather Clock. It is in excellent working condition and looks beautiful. It is the YORK model (#2190). The clock is no longer listed/manufactured on the Ridgeway site. It has three changeable chimes and weights are finished in 24k gold. An absolutely wonderful clock.

The following information on this particular clock was pulled from the internet:

Chicory Oak finish on oak solids, oak and White Ash burl veneers

Triple chime cable movement plays Westminster, Whittington and St Michael's chimes, with separate hour strike.

Automatic night shut-off

300 mm round dial has a white porcelain finish with black Roman numerals

Brass bezel

Weight shells are pewter finished with 24k gold wash bands

Remote second hand

Pendulum is a unique lyre dual vial faux mercury type within a brass circle.

Cabinet:

Federal pediment style has a white ash burl framed with ebony and maple veneers

The solid hardwood carved design between the pediment and columns wraps around to each side
of the clock

This clock is available for pick up only in the San Dimas / Southern California region. This clock's original price was nearly \$7,000.00. I am offering this for sale at a very good liquidation price, but will consider any reasonable.
