 I need weekend help. I am an MD and find myself in an interesting situation.. thought I would try CL to see what I find. I recently moved into a large quad condo in which I would like to find some help through the winter to do some handyman work around the units. I want to transform some of the space above the garage into a furnished studio room with a daybed or a single bed with storage and block it off for someone to sleep and live.. at the same time I would like to find someone fun and hard working to help me out with other work...

 Looking to find someone who could use a weekend job (paid work), and cute enough to be fun in general and willing and be available for extra work to be discussed in secret. I have chosen some contractors need help with others.

 I am 33 5'9 and weigh 150 I am good looking going through a divorce. I am also an exhibitionist in private and wear lingerie and panties like in the pic. Must be cool with that. You must send a pic for a reply. Sorry too many blank emails. I will reply with my face of course and more info.

 I have Kik which I prefer. Please send me your Kik I will.
