

# AKC TOY POODLE PUPPIES (Honolulu, Oahu)

Location **Hawaii**  
<https://www.genclassifieds.com/x-442841-z>

We have a new litter of AKC Toy Poodle Puppies available born March 23, 2015.

We have 1 FEMALE (Black) & 1 MALE (Spotted) available and they will be able to go to their new home 5/11 (7 weeks), or 5/18 (8 weeks). Will include 1st shots. Excellent health. No family history of medical issues.

Mother is 4lbs, apricot color and the father is 8lbs, black/gray. We are the proud owner of both parents.

This is an unexpected litter from our Toy Poodles, and we are not local breeders. We will not be giving papers for the puppies because we do not want others to breed the puppies. We do not want to support people turning our dogs into breeders

If you are interested in having one of these puppies, please email us!

Here is a brief introduction about the Poodle breed from the Animal Planet, to get you more acquainted with them:
