some people have no common sense they give kittens and puppies away for free abusers are taking them and using them as bait so that they can be ripped into shreds and suffer until they die because they're too lazy to take them animal care and control wpb where they may have a slight chance of getting adopted but if not would be put to sleep humanely.

I believe animal care and control wpb will come and pick the animal up if you found it and do not want it...if you wanted to be adopted for sure then put a rehoming fee of at least \$20 on it and be patient if someone cannot pay \$20 and then they cannot afford for food and litter or to take it to the vet.

there is a kitten on here for free to anyone who wants it please help me to flag the ad as there is no phone number to call and warn the person of animal abuse or an email address I do not have all day to sit here and flag it by
