I have a male 1 year old white ferret.
 He is descended and fixed so he doesn't stink.
 He is VERY kid and baby friendly. He plays very gentle with my 9 month old and 21 month old boys. He's very sweet! Has NEVER tried to bite!
 He is paper trained!
 I do not have a cage for him because he runs around and just goes in a small dog kennel at night.
 He eats cat food.
 I am asking \$150 OBO for him with his food and litter
