Half blackmouth cur half running walker. 8 months old. All shots and worming up to date. Started on deer. Will run by herself for a little while. She just needs a little more time in the woods with older dogs. It won't take much fkr her to be finished. Very good nose and has alot of hunt in her. Also very easy to handle. Very friendly around kids/other adults. I have her running around the yard freely right now. She has been raised with my 3 small children and doesn't try to run off. That may change when she becomes a finished dog and full grown. Only reason I'm getting rid of her is because because the place I just moved to doesn't allow bigger pets. All I'm asking for is a small adoption/re-homing fee of \$75 or as close to it as you can get. Located in
