I have for sale a air chain hoist. The brand is a ARO and is 1/2 ton hoist. I have never used this hoist and is missing something, not sure if it is the button for up and down BUT all else is there and seems to be a quick fix for some one that knows about them. I am seeling cheap, for parts so look at the pic closely and you decide or call me with questions. I do have other parts for the square body older Chevrolet / GMC. Please call if seriously interested, I don't answer text. seven 3 one six 7 six 958
