

Mosh Brass 3 Star BMX bike Frame amp Fork RAW Finish (25 USD)

Location **Idaho**

Selling a used MOSH steel BMX Frame and Original Fork (year 2002).

It's raw finish frame with clear coat, some of the clear has come off. Has 14mm dropouts.

Left chainstay has a couple major dents, and the fork leg bottoms are dented too.
Granted this frame weighs a ton, so it probably will not effect performance.

Original stickers are gone, replaced with some Grateful Dead stickers.

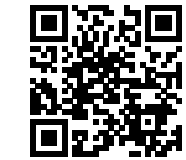

There are plenty of scratches/rust/nicks/dents/etc --- would make a great winter build project!

\$25 cash only, no offers please.
