I have two sweet baby rats, both dumbo rats which means they have big cute ears. They are very quiet and love to play together. Have to go together they are bonded brothers. They come with A running ball, 4 story ferret cage, Food bowl, Water bottle, the rest of the food (be sure to pick out the corn or they have runny poops) We would put them in our hoods and go everywhere with them stores and short walks they are great pets for anyone of any age have Never bitten only will lick you. The black and white one is younger then the beige and white one. Asking a fee of \$60 seeing how we've spent well over that on.
