Farming is hard work, managing your farm data shouldn't be. Farm At Hand is a FREE farm management and decision making program available for iOS, Android and web/desktop

iOS > <https://app.adjust.com/nq7ttt>

Android > <https://play.google.com/store/apps/details?id=com.farmathand.farmathand.app&hl=en>

Web > <http://www.farmathand.com/>

Use farm records from previous years to determine the best times to plant, fertilize, spray, scout and harvest and more. Schedule all tasks like equipment maintenance or deliveries ahead of time and know instantly when they are completed.

More importantly, you can export your farm data and download field, spraying and seeding reports with the touch of a button.

Easy to use and built for farmers on the go, this farm management app helps all types of crop farmers do what you do best - farm! Since 2012, Farm At Hand has helped thousands of soybean, corn, wheat, rice, speciality crop and all crop producers be efficient and productive in the field.

Key features includes:

FIELDS - manage your field records from the tractor, use your phone or tablet to schedule and track all field activities in real time: planting, spraying, irrigating, scouting and harvesting.

STORAGE, CONTRACT & DELIVERIES - trace every bushel from the bin yard to the buyer and all the details in between

EQUIPMENT - keep your fleet running and in the field, manage all equipment details, maintenance logs and part numbers

SAFE & SECURE - you own and control your data. You choose who to share data with, the data will always stay in your hands. We don't compromise

privacy or

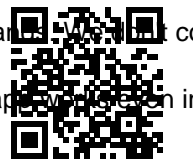

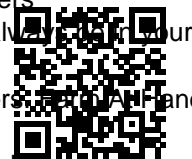

WORKS OFFLINE - available anywhere, anytime. Your data is synced across all your devices, desktop computers, tablets and apps, even in the field.

the farm, there is no internet connection.

COLLABORATE - share access with your team with various permission levels, know instantly when tasks are completed

We're always adding new features and functionality to better serve you. Check www.farmathand.com/ for updates or to contact us, we'd love to hear from you!

Download now, completely FREE, to take your farm management from the notebook to the.
