Use farm records from previous years to determine the best times to plant, fertilize, spray, scout and harvest and more. Schedule all tasks like equipment maintenance or deliveries ahead of time and know instantly when they are completed.

More importantly, you can export your farm data and download field, spraying and seeding reports with the touch of a button.

Easy to use and built for farmers on the go, this farm management app helps all types of crop farmers do what you do best - farm! Since 2012, Farm At Hand has helped thousands of soybean, corn, wheat, rice, speciality crop and all crop producers be efficient and productive in the field.

Key features includes:

FIELDS - manage your field records from the tractor, use your phone or tablet to schedule and track all field activities in real time: planting, spraying, irrigating, scouting and harvesting.

STORAGE, CONTRACT & DELIVERIES - trace every bushel from the bin yard to the buyer and all the details in between

EQUIPMENT - keep your fleet running and in the field, manage all equipment details, maintenance logs and part numbers

SAFE & SECURE - you own the data, all your data stays on your device. You choose who to share with, the app stores will always stay in your hands. We don't compromise your privacy.

WORKS OFFLINE - you can use any device, any where. You can sync up with your device, computers, tablets and any location in the world. The farm data there is not for deletion.

COLLABORATE - share access with your team with various permission levels, know instantly when tasks are completed

We're always adding new features and functionality to better serve you. Check www.farmathand.com for updates or to contact us, we'd love to hear from you!
