

Sweet 3 year old gray tabby needs a good home

Location **Indiana**
<https://www.genclassifieds.com/x-443628-z>

I do not want to find her a new home, but I must due to my severe allergies and asthma. I've tried medications, I have several air cleaners running, I take allergy and asthma medication, but nothing is bringing relief. I've checked with all of my friends and family and no one has room, or has the same allergy issues that I do so I'm hoping to find the right person for her to get the attention she craves.

Kenzi was born in the Summer of 2012 and I have had her since the fall of 2012 when I adopted her from an animal shelter in Marietta, GA.

She is roughly 3 years old. She is spayed, de-clawed, micro-chipped and up to date on all her shots with the last annual vet visit having just taken place on 05/05/2015.

More about Kenzi

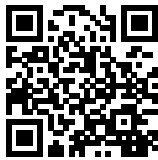

She is a lap cat and does enjoy laying on me whenever she can (with my allergies I usually try to get her down and have her chase the laser pointer). She prefers to be pet/scratched on the top of the head the best and doesn't care to be pet many other places unless she is in the mood... like most cats. :-)

Kenzi is a sweet and loving cat who loves to be pet and has a few tricks up her sleeve. She is a lap cat and does enjoy laying on me whenever she can (with my allergies I usually try to get her down and have her chase the laser pointer). She prefers to be pet/scratched on the top of the head the best and doesn't care to be pet many other places unless she is in the mood... like most cats. :-)

Recent vet visit/allergies She had her annual vet visit/vaccinations on 05/05/2015. She also has a spot she is over grooming on her back, never to the point of any sore on her skin but it was noticeable that she had missing fur. The vet said it was not any type of mites or anything like that and that it could be seasonal allergies, a food allergy or a flea allergy. I had been using Frontline Plus which I was told wasn't that great on fleas so I had then use Advantage the same time. Prior to the vet visit I had also watched her from ants to Blue Buffalo

in case it was a food allergy. She appears to have stopped over grooming and hair appears to be growing back.

What comes with her:

A small cat tree with sleeping perch and hanging toy

Litter Box with mat and Tidy Cats litter

Cat Carrier (it does have a crack along the top but perfectly functional.

Food/Water Bowls and plastic placemat

Blue Buffalo food -- nearly new bag

Assorted cat toys

See pictures.
