Location **Maine**
<https://www.genclassifieds.com/x-443762-z>

Local computer repairs including virus removal, upgrades, data recovery and consultations.
 New custom computer builds as well for gaming, video editing or business.
 Credits cards accepted.

I do this more of a hobby than a business so there is no wait list and fast turnaround. I do not charge to diagnose your computer, only if I can repair it. Prices are cheaper than big box stores due to no overhead.

Have local references.

Email or text (text number is my Google voice number hence the odd area code) is best. Will reply quickly.

Please note that I have limited knowledge of Apple products and would be unlikely to repair or upgrade any Apple products.

Also, I am able to upgrade laptops, but have limited parts to repair physical damage. If I can't help you, I may be able to find someone who can.

Thanks.

to be clear, you will be dropping off your computer with me for a day or 2, I do not do on the spot
