A Unique Photo Booth Experience

Gone are the days when the traditional photo booth was cool... you've seen it at 5 of your friends' weddings, your holiday party the last 3 years, and at the event for the charity you support. The Photo Bus is not like those photo booths. It's in a 1974 Volkswagen Bus. The photo booth was built using professional photography equipment and a do-it-yourself technology which allows you take the photos when you're ready - without a countdown - with the addition of handmade props and fun backgrounds to add some silly to the photos. Each guest receives a print with the information about the event for a forever memory of where those awesome photos were taken.

The Photo Bus STL is perfect for all events like, weddings, bar and bat mitzvahs, birthday parties, proms, corporate events, holiday parties, and charity functions. You can choose from many different colors for your background. For pricing and other information please contract us at www.thephotobusstl.com
