I'm looking for a certified caregiver that has a clean background with up to date references. I need someone during the week to help my aunt to watch her son. He needs someone to take him out to the park or the zoo or out to dinner sometimes the music store. There will be some light cooking and cleaning Required. He is in his early 50's he can do some things on his own but with other stuff he needs someone close by to give him his meds or other things he may need. During the weekends Saturday and Sunday I come by and stay with him. Room and board will be covered if you need a place to stay. If this sounds like something you may want to pursu please email me thank you and have a great.
